ABOUT

FORMFAKTOR is a design platform for German-speaking markets based in Austria. It was founded in 2018.

FORMFAKTOR is independent and not financed by any big company, publishing giant or investor with its own agenda. The result is an editorial content, which is determined purely by journalistic duty of care and completely free choice of subject. With its mix of design, innovation, architecture and mobility, FORMFAKTOR picks up on the most pressing questions of our time. FORMFAKTOR offers special forms of advertising, which are an elegant and efficient way to enter new markets like the DACH region.
